

The data presented herein is based on experiments and information believed reliable. However, we can make no guarantee on performance of, or results obtained through the use of the product herein described owing to varying conditions in laboratories and plants over which we have no control. Neither can any guarantee be given that the products or uses outlined will not infringe any existing patents.

Laundry Liquid System

MUSK DOUBLE CONCENTRATED FABRIC SOFTENER

DESCRIPTION

- Pleasant fresh odour
- Antistatic effect, reduces crumpling of blended fabrics (e.g. cotton/polyester)
- Smoothing effect on mangling hollow & increases the life of the mangling covers
- Reduces new soiling and makes following washing easier
- Reduces drying time
- Improves constant absorption of starch
- Biodegradable
- Free of DSDMAC (Disteryl dimethyl ammonium chloride)

WHERE TO USE

- Softener for all textiles.
- For finishing of pleasant soft, skin sympathetic textiles
- For increased mangling performance and improved finish effects

HOW TO USE

- Dosage: **0.5-2.0g/kg** load into the last rinsing bath
- Combinable with acids or neutralizing agents
- Electronic control and monitoring by flowmeter

INGREDIENTS

- 5-15%: cationic surfactants
- Additional ingredients: perfumes, dyes, auxiliaries

TECHNICAL DATA

Colour	White
Odour	Perfumed
pH	4.5
Foam	None
Rinsing	Complete
Storage	Cool dark place
Fuming Capacity	NAP

SECURITY

Health	Insignificant
Flammability	Non-Flammable
Reactivity	Insignificant
Personal protection	See MSDS
