The data presented herein is based on experiments and information believed reliable. However, we can make no guarantee on performance of, or results obtained through the use of the product herein described owing to varying conditions in laboratories and plants over which we have no control. Neither can any guarantee be given that the products or uses outlined will not infringe any existing patents.

## Laundry Liquid System

# FORT PLUS LIQUID LAUNDRY BREAK

### DESCRIPTION

- A highly alkaline laundry builder additive.
- Contains special alkaline builders for superior emulsification corrosion inhibitors & soil suspending agents.

### WHERE TO USE

- Fort Plus is ideal for use on a wide range of laundry.
- For use in hospital laundries, diaper plants & institutional laundries.
- Fort Plus can be used in combination with a heavy duty detergent (Accord Plus)

### HOW TO USE

- Dosage: 5ml – 7ml per kg dry laundry weight.

### INGREDIENTS

- Sodium hydroxide.

### TECHNICAL DATA

|                 |                 |
|-----------------|-----------------|
| Colour          | Colorless       |
| Odour           | None            |
| pH              | 12.2-12.8       |
| Foam            | None            |
| Rinsing         | Complete        |
| Storage         | Dry, cool place |
| Fuming Capacity | Insignificant   |

### SECURITY

|                     |               |
|---------------------|---------------|
| Health              | Insignificant |
| Flammability        | None          |
| Reactivity          | With Acids    |
| Personal protection | See MSDS      |
